Attorneys for Complainant

**BEFORE THE
MEDICAL BOARD OF CALIFORNIA
DEPARTMENT OF CONSUMER AFFAIRS
STATE OF CALIFORNIA**

In the Matter of the Third Amended Accusation
Against:

LORNE HOUTEN, M.D.

Respondent.

Case No. 17-2001-118763

OAH No. L2003020259

**STIPULATED SETTLEMENT AND
DISCIPLINARY ORDER**

IT IS HEREBY STIPULATED AND AGREED by and between the parties to
the above-entitled proceedings that the following matters are true:

PARTIES

1. Ron Joseph is the former Executive Director of the Medical Board of California. He brought this action solely in his then official capacity and is represented in this matter by Edmund G. Brown Jr., Attorney General of the State of California, by Richard D. Marino, Deputy Attorney General. Barbara Johnson is the current Executive Director of the Medical Board of California.

2. Respondent Lorne Houten, M.D., is represented in this matter by attorney Perry H. Rausher, Esq., whose address is 24025 Park Sorrento, Suite 220, Calabassas, California 91302..

3. On or about December 20, 1982, the Medical Board of California issued Physician & Surgeon's Certificate No. A39450 to Respondent. Unless renewed, Respondent's

1 license will expire on January 31, 2010.

2 **JURISDICTION**

3 4. Third Amended Accusation No. 17-2001-118763 was filed before the
4 Board's Division of Medical Quality and is currently pending against Respondent. The Third
5 mended Accusation supersedes all previously filed accusations bearing Case Number 17-2001-
6 118763. Third Amended Accusation No. 17-2001-118763 and all other statutorily required
7 documents were properly served on Respondent. Respondent timely filed his Notice of Defense
8 following the filing of the original accusation. A copy of Third Amended Accusation No.
9 17-2001-118763 is attached as Exhibit A and incorporated herein by reference.

10 **ADVISEMENT AND WAIVERS**

11 5. Respondent has carefully read, and understands the charges and allegations
12 in Third Amended Accusation No. 17-2001-118763. Respondent has also carefully read, and
13 understands the effects of this Stipulated Settlement and Disciplinary Order.

14 6. Respondent is fully aware of his legal rights in this matter, including the
15 right to a hearing on the charges and allegations in the Third Amended Accusation; the right to
16 be represented by counsel at his own expense; the right to confront and cross-examine the
17 witnesses against him; the right to present evidence and to testify on his own behalf; the right to
18 the issuance of subpoenas to compel the attendance of witnesses and the production of
19 documents; the right to reconsideration and court review of an adverse decision; and all other
20 rights accorded by the California Administrative Procedure Act and other applicable laws.

21 7. Respondent voluntarily, knowingly, and intelligently waives and gives up
22 each and every right set forth above.

23 **CULPABILITY**

24 8. Respondent admits that if this matter proceeded to hearing Complainant
25 would be able to present a *prima facie* case on each and every charge and allegation in Third
26 Amended Accusation No. 17-2001-118763.

27 9. Respondent agrees that his Physician & Surgeon's Certificate No. A39450
28 is subject to discipline and he agrees to be bound by the imposition of discipline of the Board's

1 Division of Medical Quality as set forth in the Disciplinary Order below.

2 **CONTINGENCY**

3 10. This stipulation shall be subject to approval by the Division of Medical
4 Quality. Respondent understands and agrees that counsel for Complainant and the staff of the
5 Medical Board of California may communicate directly with the Division regarding this
6 stipulation and settlement, without notice to or participation by Respondent. By signing the
7 stipulation, Respondent understands and agrees that he may not withdraw his agreement or seek
8 to rescind the stipulation prior to the time the Division considers and acts upon it. If the Division
9 fails to adopt this stipulation as its Decision and Order, the Stipulated Settlement and
10 Disciplinary Order shall be of no force or effect, except for this paragraph, it shall be
11 inadmissible in any legal action between the parties, and the Division shall not be disqualified
12 from further action by having considered this matter.

13 11. The parties understand and agree that facsimile copies of this Stipulated
14 Settlement and Disciplinary Order, including facsimile signatures thereto, shall have the same
15 force and effect as the originals.

16 12. In consideration of the foregoing admissions and stipulations, the parties
17 agree that the Division may, without further notice or formal proceeding, issue and enter the
18 following Disciplinary Order:

19 **DISCIPLINARY ORDER**

20 **IT IS HEREBY ORDERED** that Physician & Surgeon's Certificate No.
21 A39450, issued to Respondent Lorne Houten, M.D. (Respondent) is revoked. However, the
22 revocation is stayed and Respondent is placed on probation for seven (7) years on the following
23 terms and conditions.

24 1. **Education Course** Within 60 calendar days of the effective date of this
25 Decision, and on an annual basis thereafter, respondent shall submit to the Division or its
26 designee for its prior approval educational program(s) or course(s) which shall not be less than
27 40 hours per year, for each year of probation. The educational program(s) or course(s) shall be
28 aimed at correcting any areas of deficient practice or knowledge and shall be Category I certified,

1 limited to classroom, conference, or seminar settings. The educational program(s) or course(s)
2 shall be at respondent's expense and shall be in addition to the Continuing Medical Education
3 (CME) requirements for renewal of licensure. Following the completion of each course, the
4 Division or its designee may administer an examination to test respondent's knowledge of the
5 course. Respondent shall provide proof of attendance for 65 hours of continuing medical
6 education of which 40 hours were in satisfaction of this condition.

7 2. **Medical Record Keeping Course** Within 60 calendar days of the
8 effective date of this decision, respondent shall enroll in a course in medical record keeping, at
9 respondent's expense, approved in advance by the Division or its designee. Failure to
10 successfully complete the course during the first 6 months of probation is a violation of
11 probation.

12 A medical record keeping course taken after the acts that gave rise to the charges
13 in the Accusation, but prior to the effective date of the Decision may, in the sole discretion of the
14 Board or its designee, be accepted towards the fulfillment of this condition if the course would
15 have been approved by the Board or its designee had the course been taken after the effective
16 date of this Decision.

17 Respondent shall submit a certification of successful completion to the Board or
18 its designee not later than 15 calendar days after successfully completing the course, or not later
19 than 15 calendar days after the effective date of the Decision, whichever is later.

20 3. **Clinical Training Program** Within 60 calendar days of the effective
21 date of this Decision, Respondent shall enroll in a clinical training or educational program
22 equivalent to the Physician Assessment and Clinical Education Program (PACE) offered at the
23 University of California - San Diego School of Medicine (Program).

24 The Program shall consist of a Comprehensive Assessment program comprised of
25 a two-day assessment of Respondent's physical and mental health; basic clinical and
26 communication skills common to all clinicians; and medical knowledge, skill and judgment
27 pertaining to Respondent's specialty or sub-specialty, and at minimum, a 40 hour program of
28 clinical education in the area of practice in which Respondent was alleged to be deficient and

1 which takes into account data obtained from the assessment, Decision(s), Accusation(s), and any
2 other information that the Division or its designee deems relevant. Respondent shall pay all
3 expenses associated with the clinical training program.

4 Based on Respondent's performance and test results in the assessment and clinical
5 education, the Program will advise the Division or its designee of its recommendation(s) for the
6 scope and length of any additional educational or clinical training, treatment for any medical
7 condition, treatment for any psychological condition, or anything else affecting Respondent's
8 practice of medicine. Respondent shall comply with Program recommendations.

9 At the completion of any additional educational or clinical training, Respondent
10 shall submit to and pass an examination. The Program's determination whether or not
11 Respondent passed the examination or successfully completed the Program shall be binding.

12 Respondent shall complete the Program not later than six months after
13 Respondent's initial enrollment unless the Division or its designee agrees in writing to a later
14 time for completion.

15 Failure to participate in and complete successfully all phases of the clinical
16 training program outlined above is a violation of probation.

17 4. **Monitoring - Practice/Billing** Within 30 calendar days of the effective
18 date of this Decision, Respondent shall submit to the Board or its designee for prior approval as
19 practice and billing monitors, the name and qualifications of one or more licensed physicians and
20 surgeons whose licenses are valid and in good standing, and who are preferably American Board
21 of Medical Specialties (ABMS) certified. A monitor shall have no prior or current business or
22 personal relationship with respondent, or other relationship that could reasonably be expected to
23 compromise the ability of the monitor to render fair and unbiased reports to the Board, including,
24 but not limited to, any form of bartering, shall be in Respondent's field of practice, and must
25 agree to serve as Respondent's monitor. Respondent shall pay all monitoring costs.

26 The Board or its designee shall provide the approved monitor(s) with copies of the
27 Decision and Third Amended Accusation, and a proposed monitoring plan. Within 15 calendar
28 days of receipt of the Decision, Third Amended Accusation, and proposed monitoring plan, the

1 monitor shall submit a signed statement that the monitor has read the Decision and Third
2 Amended Accusation, fully understands the role of a monitor, and agrees or disagrees with the
3 proposed monitoring plan. If the monitor disagrees with the proposed monitoring plan, the
4 monitor shall submit a revised monitoring plan with the signed statement.

5 Within 60 calendar days of the effective date of this Decision, and continuing
6 throughout probation, Respondent's practice and billing shall be monitored by the approved
7 monitor(s). Respondent shall make all records available for immediate inspection and copying
8 on the premises by the monitor at all times during business hours, and shall retain the records for
9 the entire term of probation.

10 The monitor(s) shall submit a quarterly written report to the Board or its designee
11 which includes an evaluation of Respondent's performance, indicating whether respondent's
12 practices are within the standards of practice of medicine or billing, or both, and whether
13 respondent is practicing medicine safely, billing appropriately or both.

14 It shall be the sole responsibility of Respondent to ensure that the monitor(s)
15 submit(s) the quarterly written reports to the Board or its designee within 10 calendar days after
16 the end of the preceding quarter.

17 If the monitor resigns or is no longer available, Respondent shall, within 5
18 calendar days of such resignation or unavailability, submit to the Board or its designee, for prior
19 approval, the name and qualifications of a replacement monitor who will be assuming that
20 responsibility within 15 calendar days. If Respondent fails to obtain approval of a replacement
21 monitor within 60 days of the resignation or unavailability of the monitor, respondent shall be
22 suspended from the practice of medicine until a replacement monitor is approved and prepared to
23 assume immediate monitoring responsibility. Respondent shall cease the practice of medicine
24 within 3 calendar days after being so notified by the Board or designee.

25 In lieu of a monitor, Respondent may participate in a professional enhancement
26 program equivalent to the one offered by the Physician Assessment and Clinical Education
27 Program at the University of California, San Diego School of Medicine, that includes, at
28 minimum, quarterly chart review, semi-annual practice assessment, and semi-annual review of

1 professional growth and education. Respondent shall participate in the professional enhancement
2 program at respondent's expense during the term of probation.

3 Failure to maintain all records, or to make all appropriate records available for
4 immediate inspection and copying on the premises, or to comply with this condition as outlined
5 above is a violation of probation.

6 5. **Prohibited Practice** During probation, Respondent is prohibited from
7 performing surgery until he successfully passes the Clinical Training Program described in
8 Paragraph 3, above. After the effective date of this Decision, the first time that a patient seeking
9 the prohibited services makes an appointment, Respondent shall orally notify the patient that
10 respondent does not perform surgery. Respondent shall maintain a log of all patients to whom
11 the required oral notification was made. The log shall contain the: 1) patient's name, address
12 and phone number; 2) patient's medical record number, if available; 3) the full name of the
13 person making the notification; 4) the date the notification was made; and 5) a description of the
14 notification given. Respondent shall keep this log in a separate file or ledger, in chronological
15 order, shall make the log available for immediate inspection and copying on the premises at all
16 times during business hours by the Board or its designee, and shall retain the log for the entire
17 term of probation. Failure to maintain a log as defined in the section, or to make the log
18 available for immediate inspection and copying on the premises during business hours is a
19 violation of probation.

20 In addition to the required oral notification, after the effective date of this
21 Decision, the first time that a patient who seeks the prohibited services presents to Respondent,
22 Respondent shall provide a written notification to the patient stating that respondent does not
23 perform surgery. Respondent shall maintain a copy of the written notification in the patient's
24 file, shall make the notification available for immediate inspection and copying on the premises
25 at all times during business hours by the Board or its designee, and shall retain the notification
26 for the entire term of probation. Failure to maintain the written notification as defined in the
27 section, or to make the notification available for immediate inspection and copying on the
28 premises during business hours is a violation of probation.

1 6. **Notification** Prior to engaging in the practice of medicine, the respondent
2 shall provide a true copy of the Decision(s) and Accusation(s) to the Chief of Staff or the Chief
3 Executive Officer at every hospital where privileges or membership are extended to respondent,
4 at any other facility where respondent engages in the practice of medicine, including all physician
5 and locum tenens registries or other similar agencies, and to the Chief Executive Officer at every
6 insurance carrier which extends malpractice insurance coverage to respondent. Respondent shall
7 submit proof of compliance to the Board or its designee within 15 calendar days.

8 This condition shall apply to any change(s) in hospitals, other facilities or
9 insurance carrier.

10 7. **Supervision of Physician Assistants** During probation, respondent is
11 prohibited from supervising physician assistants.

12 8. **Obey All Laws** Respondent shall obey all federal, state and local laws,
13 all rules governing the practice of medicine in California, and remain in full compliance with any
14 court ordered criminal probation, payments and other orders.

15 9. **Quarterly Declarations** Respondent shall submit quarterly declarations
16 under penalty of perjury on forms provided by the Board, stating whether there has been
17 compliance with all the conditions of probation. Respondent shall submit quarterly declarations
18 not later than 10 calendar days after the end of the preceding quarter.

19 10. **Probation Unit Compliance** Respondent shall comply with the Board's
20 probation unit. Respondent shall, at all times, keep the Board informed of respondent's business
21 and residence addresses. Changes of such addresses shall be immediately communicated in
22 writing to the Board or its designee. Under no circumstances shall a post office box serve as an
23 address of record, except as allowed by Business and Professions Code section 2021(b).

24 Respondent shall not engage in the practice of medicine in Respondent's place of
25 residence. Respondent shall maintain a current and renewed California physician's and
26 surgeon's license.

27 Respondent shall immediately inform the Board, or its designee, in writing, of
28 travel to any areas outside the jurisdiction of California which lasts, or is contemplated to last,

1 more than 30 calendar days.

2 11. **Interview with the Board, or its Designee** Respondent shall be
3 available in person for interviews either at respondent's place of business or at the probation unit
4 office, with the Board or its designee, upon request at various intervals, and either with or
5 without prior notice throughout the term of probation.

6 12. **Residing or Practicing Out-of-State** In the event respondent should
7 leave the State of California to reside or to practice, respondent shall notify the Board or its
8 designee in writing 30 calendar days prior to the dates of departure and return. Non-practice is
9 defined as any period of time exceeding 30 calendar days in which respondent is not engaging in
10 any activities defined in Sections 2051 and 2052 of the Business and Professions Code.

11 All time spent in an intensive training program outside the State of California
12 which has been approved by the Board or its designee shall be considered as time spent in the
13 practice of medicine within the State. A Board-ordered suspension of practice shall not be
14 considered as a period of non-practice. Periods of temporary or permanent residence or practice
15 outside California will not apply to the reduction of the probationary term. Periods of temporary
16 or permanent residence or practice outside California will relieve respondent of the responsibility
17 to comply with the probationary terms and conditions with the exception of this condition and
18 the following terms and conditions of probation: Obey All Laws; Probation Unit Compliance;
19 and Cost Recovery.

20 Respondent's license shall be automatically canceled if respondent's periods of
21 temporary or permanent residence or practice outside California total two years. However,
22 respondent's license shall not be canceled as long as respondent is residing and practicing
23 medicine in another state of the United States and is on active probation with the medical
24 licensing authority of that state, in which case the two year period shall begin on the date
25 probation is completed or terminated in that state.

26 13. **Failure to Practice Medicine - California Resident** In the event
27 respondent resides in the State of California and for any reason respondent stops practicing
28 medicine in California, respondent shall notify the Board or its designee in writing within 30

1 calendar days prior to the dates of non-practice and return to practice. Any period of non-
2 practice within California, as defined in this condition, will not apply to the reduction of the
3 probationary term and does not relieve respondent of the responsibility to comply with the terms
4 and conditions of probation. Non-practice is defined as any period of time exceeding 30 calendar
5 days in which respondent is not engaging in any activities defined in sections 2051 and 2052 of
6 the Business and Professions Code.

7 All time spent in an intensive training program which has been approved by the
8 Board or its designee shall be considered time spent in the practice of medicine. For purposes of
9 this condition, non-practice due to a Board-ordered suspension or in compliance with any other
10 condition of probation, shall not be considered a period of non-practice.

11 Respondent's license shall be automatically canceled if respondent resides in
12 California and for a total of two years, fails to engage in California in any of the activities
13 described in Business and Professions Code sections 2051 and 2052.

14 14. **Completion of Probation** Respondent shall comply with all financial
15 obligations (e.g., probation costs) not later than 120 calendar days prior to the completion of
16 probation. Upon successful completion of probation, respondent's certificate shall be fully
17 restored.

18 15. **Violation of Probation** Failure to fully comply with any term or
19 condition of probation is a violation of probation. If respondent violates probation in any respect,
20 the Board, after giving respondent notice and the opportunity to be heard, may revoke probation
21 and carry out the disciplinary order that was stayed. If an Accusation, Petition to Revoke
22 Probation, or an Interim Suspension Order is filed against respondent during probation, the Board
23 shall have continuing jurisdiction until the matter is final, and the period of probation shall be
24 extended until the matter is final.

25 16. **License Surrender** Following the effective date of this Decision, if
26 respondent ceases practicing due to retirement, health reasons or is otherwise unable to satisfy
27 the terms and conditions of probation, respondent may request the voluntary surrender of
28 respondent's license. The Board reserves the right to evaluate respondent's request and to

1 exercise its discretion whether or not to grant the request, or to take any other action deemed
2 appropriate and reasonable under the circumstances. Upon formal acceptance of the surrender,
3 respondent shall within 15 calendar days deliver respondent's wallet and wall certificate to the
4 Board or its designee and respondent shall no longer practice medicine. Respondent will no
5 longer be subject to the terms and conditions of probation and the surrender of respondent's
6 license shall be deemed disciplinary action. If respondent re-applies for a medical license, the
7 application shall be treated as a petition for reinstatement of a revoked certificate.

8 17. **Probation Monitoring Costs** Respondent shall pay the costs associated
9 with probation monitoring each and every year of probation, as designated by the Board. Such
10 costs shall be payable to the Medical Board of California and delivered to the Board or its
11 designee no later than January 31 of each calendar year. Failure to pay costs within 30 calendar
12 days of the due date is a violation of probation.

ACCEPTANCE

I have carefully read the above Stipulated Settlement and Disciplinary Order and have fully discussed it with my attorney, Perry H. Rausher, Esq. I understand the stipulation and the effect it will have on my Physician and Surgeon's Certificate. I enter into this Stipulated Settlement and Disciplinary Order voluntarily, knowingly, and intelligently, and agree to be bound by the Decision and Order of the Medical Board of California.

DATED: L. Houten 2/1/09

2/1/09 L. Houten
LORNE HOUTEN, M.D. (Respondent)
Respondent.

I have read and fully discussed with Respondent Lorne Houten, M.D., the terms and conditions and other matters contained in the above Stipulated Settlement and Disciplinary Order. I approve its form and content.

3. This Third Amended Accusation¹ is brought before the Medical Board of

All section references are to the Business and Professions Code unless otherwise indicated.

A. Section 2004 provides:

“The board shall have the responsibility for the following:

“a) The enforcement of the disciplinary and criminal provisions

"b) The administration and hearing of disciplinary actions.

"c) Carrying out disciplinary actions appropriate to findings

"d) Suspending, revoking, or otherwise limiting certificates

“e) Reviewing the quality of medical practice carried out by

B. Section 2227 of the Code provides:

“(a) A licensee whose matter has been heard by an administrative law

“(1) Have his or her license revoked upon order of the division.

"(2) Have his or her right to practice suspended for a period not to exceed

“(3) Be placed on probation and be required to pay the costs of probation

1. The original, First Amended and Second Amended Accusations were filed on October 15, 2002 ; April 29, 2003; and, October 22, 2003, respectively. This Third Amended Accusation supersedes all previous accusations.

1 “(4) Be publicly reprimanded by the division.

2 “(5) Have any other action taken in relation to discipline as the division or
3 an administrative law judge may deem proper.

4 “(b) Any matter heard pursuant to subdivision (a), except for warning
5 letters, medical review or advisory conferences, or other matters made confidential or
6 privileged by existing law, is deemed public, and shall be made available to the public by
7 the board.”

8 C. Section 2234 provides:

9 “The [Medical Board of California] shall take action against any licensee
10 who is charged with unprofessional conduct. In addition to other provisions of this
11 article, unprofessional conduct includes, but is not limited to, the following:

12 “(a) Violating or attempting to violate, directly or indirectly, assisting in
13 or abetting the violation of, or conspiring to violate any provision of this chapter [Chapter
14 5, the Medical Practice Act].

15 “(b) Gross negligence.

16 “(c) Repeated negligent acts. To be repeated, there must be two or more
17 negligent acts or omissions. An initial negligent act or omission followed by a separate
18 and distinct departure from the applicable standard of care shall constitute repeated
19 negligent acts.

20 “(1) An initial negligent diagnosis followed by an act or omission
21 medically appropriate for that negligent diagnosis of the patient shall constitute a single
22 negligent act.

23 “(2) When the standard of care requires a change in the diagnosis, act, or
24 omission that constitutes the negligent act described in paragraph (1), including, but not
25 limited to, a reevaluation of the diagnosis or a change in treatment, and the licensee's
26 conduct departs from the applicable standard of care, each departure constitutes a separate
27 and distinct breach of the standard of care.

28 “(d) Incompetence.

1 "..."

2 E. Section 2266 provides:

3 "The failure of a physician and surgeon to maintain adequate and
4 accurate records relating to the provision of services to their patients constitutes
5 unprofessional conduct."

6 **FIRST CAUSE FOR DISCIPLINE**

7 (Gross Negligence)

8 4. Respondent is subject to disciplinary action under Business and
9 Professions Code section 2234, subdivision (b), in that Respondent committed gross negligence
10 during his care, treatment and management of Patients N.J. and R.D.,² as follows:

11 **Patient N.J.**

12 A. On or about February 12, 2000, Patient N.J., a 48 year-old male,
13 presented to respondent for surgery. The surgery was conducted to excise a malformation
14 from a cerebellar hematoma. Imaging studies made during the immediate post-surgery
15 period showed that hemostasis and vacuation of the hematoma had been obtained by an
16 incorrect left-sided procedure. An angiogram indicated bias to the right. Respondent did
17 not perform, or did not document the performance of, a full, pre-surgery neurological
18 evaluation.

19 B. On or about February 23, 2000, following a CAT scan and
20 angiogram showing an AV (i.e., arteriovenous/atrioventricular) malformation being fed
21 by the superior cerebellar artery and the anterior inferior cerebellar artery, respondent
22 performed surgery on N.J. to excise the malformation and an aneurysm of a feeding
23 artery. This entailed a widening of the opening in the suboccipital area, followed by
24 removal of the feeding vessels and the rest of the arterial venous malformation.

25
26 2. All references to individuals other than Respondent are by initials only to protect the
27 individuals' privacy. The true names of these individuals are known to Respondent and have
28 been or will be revealed to him during pursuant to the discovery procedures codified in
Government Code section 11507.6.

1 Respondent did not document that the lesion was biased to the right. Respondent has
2 stated that N.J.'s head was down on the left side, making it impossible for an entry from
3 the left, but these facts were not documented in respondent's records on N.J.
4 Respondent's operative note indicated that an angiogram was not performed when, in
5 fact, one was done.

6 C. On or about August 8, 2000, N.J. returned to respondent for post-
7 surgery follow-up. Respondent did not document the performance of more than one
8 surgery in his records for N.J.

9 D. The following acts and omissions constitute extreme departures
10 from the standard of care:

- 11 (1) Respondent failed to plan the craniotomy site correctly.
- 12 (2) Respondent failed to use the appropriate approach for the
13 removal of a cerebellar arteriovenous malformation.
- 14 (3) By failing to perform a post-surgery angiogram to evaluate
15 the completeness of the removal of the AV malformation;
16 and/or failing to document same.

17 **Patient R.D.**

18 E. On or about April 2 or 3, 1999, Patient R.D., a male, presented to
19 Respondent with complaints of tingling and burning sensations in his thighs and groin
20 area. Respondent had been referred by Patient R.D.'s primary care physician, Dr. Y.

21 F. Respondent reviewed magnetic resonance imaging forms which
22 previously had been taken of Patient R.D. and which Patient R.D. provided to
23 Respondent. Respondent explained to Patient R.D. that he had "bulging disks" and that
24 surgery was the only available option. Patient R.D. agreed to the surgery which was
25 scheduled for April 9, 1999. Respondent told Patient R.D. that he would be hospitalized
26 for three days post surgery. Respondent also said that Patient R.D. would be "up and
27 around" in about three months and would be able to resume all normal activities within
28 six months.

1 G. On the date of surgery, Patient R.D. signed a consent for surgery
2 form. However, no one, including Respondent, explained the risks and complications
3 associated with the surgery to be performed by Respondent. On April 9, 1999,
4 Respondent performed the surgery. Patient R.D. remained hospitalized for 28 days, not
5 three days as advised by Respondent.

6 H. During his hospitalization, Patient R.D. saw Respondent
7 postoperatively only once. Postoperatively, Patient R.D. had a leakage problem at the
8 surgical site. His primary care physician ordered another MRI; and, after reviewing the
9 MRI, referred Patient R.D. to Dr. M, another physician and surgeon. The MRI revealed
10 that Respondent had performed the surgery on the wrong side and at the wrong level. On
11 August 9, 1999, Dr. M. performed corrective surgery on Patient R.D.

12 I. The following acts and omissions constitute an extreme departure
13 from the standard of care:

- 14 (1) Performing surgery at the wrong location.
- 15 (2) Failing to document the patients neurological evaluation
16 and medical management prior to surgery.
- 17 (3) Failing to monitor the patient adequately following surgery.
- 18 (4) Failing to advise the patient of the risks and complications.

19 **SECOND CAUSE FOR DISCIPLINE**

20 (Repeated Negligent Acts)

21 5. Respondent is subject to disciplinary action under Business and
22 Professions Code section 2234, subdivision (c), in that Respondent committed repeated negligent
23 acts during his care, treatment and management of Patients N.J., R.D., J.H., O.A., K.A., C.J.,
24 M.R., R.M. C.T., and D.M., among others, as follows:

25 **Patient N.J.**

26 A. Respondent refers to and, by the this reference, incorporates
27 Paragraph 4, subparagraphs A through D, inclusive, above, as though fully set
28 forth.

1 **Patient R.D.**

2 B. Respondent refers to and, by the this reference, incorporates
3 Paragraph 4, subparagraphs E through I, inclusive, above, as though fully set
4 forth.

5 **Patient J.H.**

6 C. On or about February 12, 1998, Patient J.H., a 52 year-old female,
7 presented to Respondent with a history of low back and left leg pain, radiating to the left
8 buttock. Respondent did not document the performance of a neurological evaluation, but
9 diagnosed lumbar radiculopathy with lateral stenosis and extensive nerve root adhesions.
10 Respondent performed a decompression and a lysis of the nerve root adhesions.
11 Respondent did not document an indication for this surgery. But a pre-surgery MRI was
12 performed which showed prior surgical changes at L4-5 on the left, consistent with
13 arachnoiditis.

14 D. On or about February 13, 1998, Patient J.H. experienced difficulty
15 walking. She was left with a numb coccyx and loss of bladder and bowel function.

16 E. The following acts and omissions constitute departures from the
17 standard of care:

- 18 (1) Failing to document the operative report correctly in that
19 the postoperative imaging reports did not support
20 performance of an L3-L4 exploration.
21 (2) Failing to document neurological evaluations and
22 indications for surgery.

23 **Patient O.A.**

24 F. On or about April 10, 2000, Patient O.A., a 34 year-old male, with
25 a history of impotency and decreased libido, was found to have a large pituitary macro
26 adenoma. Respondent performed a left frontotemporal craniotomy for resection of the
27 tumor. Patient O.A. never regained full consciousness following the surgery, and
28 developed intra cranial pressure as well as elevated blood sugar. A CAT scan revealed

1 severe edema with a shifting of intra cranial contents.

2 G. On or about April 12, 2000, Patient O.A. remained hospitalized.
3 Respondent treated O.A. with Mannitol and ventricular drainage, but Patient O.A.'s brain
4 function ceased and he expired.

5 H. The following acts and omissions constituted departures from the
6 standard of care:

- 7 (1) Respondent failed to document a preoperative neurological
8 evaluation (i.e., no consultations reported, no mention of
9 endocrinological work-up in reference to bromocriptine, no
10 report of visual fields).
11 (2) Respondent failed to document the patient's hormonal
12 studies prior to the craniotomy.

13 **Patient K.A.**

14 I. On or about August 5, 1998, Patient K.A., a 35 year-old female,
15 presented to respondent with complaints of hip and back problems. Respondent
16 documented "continued pain and neurodeficits relative to cervical stenosis."

17 J. On or about November 18, 1999, Patient K.A. returned to
18 respondent, who noted pain in the upper extremities with decreased strength. A full
19 neurological examination was not performed and/or documented. A presurgery
20 evaluation, including imaging results, was not performed and/or documented. There was
21 no initial intake note, and no documented intake physical and history.

22 K. On or about February 1, 2000, respondent performed surgery on
23 Patient K.A., which consisted of an anterior cervical discectomy and fusion at C4-5 and
24 C5-6 with instrumentation. During the immediate post-surgery period, Patient K.A.
25 experienced weakness in the upper left extremity and altered consciousness. A CAT scan
26 showed a right cerebellar infarction, with mild hydrocephalus and distortion of the fourth
27 ventricle. In cases of anterior cervical discectomy, vertebral artery injury, though rare, is
28 possible, especially when the side is ipsilateral to the discectomy incision.

1 L. The following acts and omissions constitute departures from the
2 standard of care:

- 3 (1) Respondent failed to perform an adequate pre-surgery
4 neurological evaluation, including imaging studies; and/or
5 failing to document same.
6 (2) Respondent failed to request a vascular study to diagnose
7 the cause of the cerebellar infarction following the anterior
8 cervical disectomy and fusion.

9 **Patient C.G.**

10 M. On or about February 1, 2000, Patient C.G., a 76 year-old female,
11 presented to Respondent with a history of breast mass, coronary artery disease, and prior
12 L4-5 and L5-6 laminectomies. Patient C.G. complained of low back pain radiating into
13 her left leg and right hip. She required a walker. An MRI of the lower back showed
14 severe scoliosis with spondylosis at L3-4, where there was severe central and foraminal
15 stenosis bilaterally. Respondent suspected a discitis and some abnormal marrow signal at
16 L3-4.

17 N. On or about February 25, 2000, Patient C.G. presented to
18 Respondent for surgery. The surgery involved an L3 microcorpectomy from the anterior
19 approach, retroperitoneally, and L2-3 and L3-4 microdiscectomy with cage fusion.
20 Respondent did not document the specific indications for this procedure. The choice of
21 an anterior approach for spinal stenosis was improper. There was poor placement of the
22 cages, which use was questionable.

23 O. On or about March 18, 2000, a CT myelogram performed post-
24 surgery showed the persistence of a complete block at L3-4, with no change in the degree
25 of stenosis from the pre-surgery films. The corpectomy device appeared to have eroded
26 through the posterior cortex.

27 P. On or about March 22, 2000, Respondent surgically removed the
28 hardware (i.e., titanium cages, plate and screws) from Patient C.G. and made a fusion

1 with acrylic to fill the space anteriorly. This procedure left Patient C.G. an incomplete
2 paraplegic from the waist down.

3 Q. Subsequently, Patient C.G. was examined by James Kayvanfor,
4 M.D., an orthopedist, who performed a third surgery on her back, which resulted in a
5 return of her ability to walk.

6 R. The following act and omission constitutes a departure from the
7 standard of care:

- 8 (1) Failing to perform, or document the performance of, a pre-
9 surgery, neurological evaluation.

10 **Patient M.R.**

11 S. On or about November 12, 1999, Patient M.R., a 74 year-old male,
12 presented to Respondent for surgery. Patient M.R. had a history of multiple low back
13 surgeries and persistent discomfort in the lower back and legs. Respondent performed an
14 epiduroscopy with Wydase and epidural steroids. Fifteen minutes into the surgery,
15 Patient M.R. developed intense spasms in both legs, with cramping, requiring
16 endotracheal anesthesia. The cramping was so severe that fractures resulted at the
17 thoracic levels of T9, T10 and T12. A hypertensive crisis ensued. Subsequently, Patient
18 M.R. suffered with a paraparesis (i.e., lower extremity weakness), requiring significant
19 rehabilitation. Respondent did not document a pre-surgery neurological evaluation; nor
20 an indication for the surgery; nor a clear cut reason for the epiduroscopy. No photos were
21 taken during the imagery of the epiduroscopy.

22 T. The following act and omission constitutes a departure from the
23 standard of care:

- 24 (1) Failing to document a pre-surgery neurological evaluation.

25 **Patient R.M.**

26 U. On or about December 12, Patient R.M. a 37 year-old female,
27 presented to Respondent, who diagnosed cervical and thoracic stenosis, with
28 ///

1 radiculopathy and myelopathy. Respondent ordered cervical and thoracic myelogram CT scans.

2 V. On or about January 2, 2000, Respondent reviewed the results of
3 the CT scans and recommended anterior cervical disectomy and fusion at C5-6 and C6-7.

4 W. On or about February 4, 2000, Respondent performed the surgery
5 on Patient R.M. Respondent examined Patient R.M. at his office post-surgery, and noted
6 that she was neurologically "stable."

7 X. On or about March 3, 2000, Patient R.M. returned to her
8 employment.

9 Y. The following act and omission constitutes a departure from the
10 standard of care:

11 (1) Failing to perform or, in the alternative, document the
12 performance of, pre-surgery neurological evaluations.

13 **Patient C.T.**

14 Z. On or about May 22, 1997, Patient C.T., a 43 year-old male, was
15 hospitalized for pain control through morphine PCA. Patient C.T. was insulin dependent
16 and had a history of multiple low back surgeries dating to 1996.

17 AA. On or about June 24, 1997, Patient C.T. was hospitalized by
18 Respondent for the insertion of a lumbar subarachnoid drain to treat pseudomeningocele.
19 Respondent noted "puffiness around the incision," but did not document the performance
20 of a neurological examination.

21 BB. On or about June 25, 1999, Patient C.T. was hospitalized by
22 Respondent for the placement of a spinal cord stimulator, which was discarded and
23 replaced by a morphine pump. The performance of a neurological evaluation, including
24 consideration of an intrathecal morphine trial, was not documented by Respondent.

25 CC. On or about March 13, 2000, Respondent performed a T9-10
26 laminectomy and intradural exploration for a presumed epidural mass, which is not
27 identified in Respondent's records on C.T.

28 ///

1 DD. The following act and omission constitutes a departure from the
2 standard of care:

- 3 (1) Failing to document outpatient neurological evaluations
4 and indications for surgery.

5 **Patient D.M.**

6 EE. On or about December 10, 1998, Patient D.M. stated that she felt
7 "an electric shock" down her back. She also complained of arm pain, muffled hearing
8 and memory problems.

9 FF. In Patient D.M.'s medical chart, Respondent recorded that he
10 observed what he described as decreased extension of the finger on the right and a "trace"
11 decreased strength of the deltoid, minimal paraspinous tenderness, and normal range of
12 motion. Respondent believed that Patient D.M. suffered from radiculopathy for which
13 he prescribe Flexeril and recommended magnetic resonance imaging (MRI).

14 GG. Patient D.M. executed a written authorization for the release to
15 Respondent of her medical records from previous treating physicians; however,
16 Respondent did not attempt to obtain any of these records.

17 HH. On or about January 13, 1999, Patient D.M. next presented to
18 Respondent. At that time, she complained of neck and arm pain and persistent weak and
19 numb hands. Respondent did not perform a neurological evaluation or record the
20 progress of the Flexeril. Respondent did not refer Patient D.M. for a psychological
21 consultation. He did not refer the patient for physical therapy. Rather, Respondent
22 strongly suggested that Patient D.M. undergo diskectomy with fusion. Patient D.M.
23 advised that she wanted to seek a second medical opinion before agreeing to the surgery.

24 II. Before Patient D.M. could obtain a second opinion, Respondent's
25 secretary telephoned Patient D.M. advising her that Respondent had scheduled her for
26 surgery. Because Respondent had informed her that she risked paralysis if she did not
27 have the surgery, she agreed to the procedure which was performed on January 26, 1999.

28 ///

1 JJ. Respondent performed an anterior cervical discectomy with fusion
2 and plating C5-6 and C6-7. The operative report prepared by Respondent shows that the
3 surgery took two and one half hours; however, Respondent's operative report contains no
4 indication for surgery.

5 KK. Respondent saw Patient D.M. postoperatively on February 10,
6 March 23, March 31, and August 4, 1999.

7 LL. The following act and omission constitutes a departure from the
8 standard of care:

- 9 (1) Failing to perform a complete neurological examination or,
10 in the alternative, failing to document that he did so.

11 **THIRD CAUSE FOR DISCIPLINE**

12 (Failure To Maintain Adequate and Accurate Records)

13 6. Respondent is subject to disciplinary action under Business and
14 Professions Code section 2266 in that Respondent failed to maintain adequate and accurate
15 records relating to the provision of services to Patients N.J., R.D., J.H., O.A., K.A., C.J., M.R.,
16 R.M. C.T., and D.M., as follows:

17 A. Complainant refers to and, by this reference, incorporates
18 herein paragraphs 4 and 5, above as though fully set forth.

PRAYER

WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged, and that following the hearing, the Medical Board of California issue a decision:

1. Revoking or suspending Physician's & Surgeon's Certificate Number A39450, issued to Lorne Houten, M.D.;
2. Revoking, suspending or denying approval of Lorne Houten, M.D.'s authority to supervise physician assistants, pursuant to section 3527 of the Code;
3. Ordering Lorne Houten, M.D., to pay the costs of probation monitoring to the Board if he is placed on probation; and,
4. Taking such other and further action as deemed necessary and proper.

DATED: September 23, 2008

BARBARA JOHNSTON
Executive Director
Medical Board of California
Department of Consumer Affairs
State of California

Complainant
